

Duke CFAR Special Seminar

Monday, May 22nd, 2023

9:00am-10:00am EST

**Carmichael Building, Michelle Winn
Memorial Conference Room**

Neuroimmune and Inflammatory Responses

Sabrina Tan, MD in Acute SIV Infection

*Associate Professor of Medicine
Associate Professor of Microbiology and Immunology
Carver College of Medicine University of Iowa*

Dr. Tan is a physician scientist with clinical expertise in transplant infectious diseases and laboratory research focusing on neuroviral immunology. After graduating from MIT, Dr. Tan obtained her medical education and internal medicine training at New York University, after which she continued her training in infectious disease at Beth Israel Deaconess Medical Center (BIDMC) and Harvard Medical School (HMS) in Boston. Dr. Tan established her own laboratory and program at BIDMC/HMS, until her recent relocation to the University of Iowa. The Tan laboratory primarily researches neuroimmunology and inflammation in response to HIV/SIV, as well as the host immune response to the polyomaviruses JC and BK.
