

SPECIAL ISSUE ON HIV & AGING

CALL FOR PAPERS

The *Journal of the Association of Nurses in AIDS Care (JANAC)* plans to publish a special issue on the topic of **HIV & Aging** in the spring of 2019. We are seeking feature articles (including original research and systematic reviews), as well as practice briefs, program briefs, commentaries, and case studies. The special issue is especially interested in obtaining manuscripts in the following areas:

- Psychosocial aspects of aging with HIV
- Long-term survivors as a special population aging with HIV
- Older persons becoming newly infected
- Prevention among older adults
- Promoting successful aging with HIV
- Aging and adherence
- Stigma perspectives related to aging with HIV
- Home health/long term care readiness
- Cognition and aging

If you have a manuscript (or would like to develop one) on one of the topics listed above, or another topic related to HIV & Aging, please contact one of the *JANAC* Guest Editors for this issue:
