Duke Center for Virology

17th ANNUAL DUKE MINISYMPOSIUM ON PATHOGENIC HUMAN VIRUSES

Room 103 Bryan Research Building
Thursday, April 11, 2019  9:00 a.m. – 12:30 p.m.
Continental breakfast 8:30 a.m.

Alan Engelman, Ph.D.
Dana-Farber Cancer Institute
“Mechanisms and Inhibition of HIV Integration Protein”

Ekaterina (Katya) Heldwein, Ph.D.
Tufts University School of Medicine
“Structure-based Mechanisms of Host Manipulation by Herpesviruses”

Andrew Pekosz, Ph.D.
Johns Hopkins Bloomberg School of Public Health
“Influenza Surveillance and the Identification of Novel Genetic Mutations That Facilitate Virus Circulation”

Priscilla Yang, Ph.D.
Harvard Medical School
“Chemical Approaches to the Study of Viruses: From Basic Molecular Mechanisms to Pharmacological Inhibition”

Support provided by:

Duke Cancer Institute

Organized by Bryan Cullen • bryan.cullen@duke.edu • 919-684-3369
